### Product features

- Kit consisting of a metallic drawer and a frame with adjustable width guides for 60 cm modules.
- Suitable for a wardrobe interior gap of 562 - 588 mm with a minimum depth of 460 mm. Each of its guides features an adjustment of up to 13 mm, ensuring a perfect installation in any wardrobe space.
- Frame with soft-close guides and full extension that supports up to 30 kg of weight. Made from high-quality plastic and aluminum with an elegant titanium finish (RAL 7039). It is easy and efficient to assemble—just screw it into the side of the wardrobe. Designed to fit different wardrobe widths, thanks to an adjustable regulation of up to 13 mm in each of its guides and the included spacers.

- Includes 1 metal drawer for wardrobes and dressing rooms, designed to store clothing in an organised manner, with a structure resistant to impacts and falls. With a width of 440 mm, depth of 420 mm and height of 140 mm, it fits various spaces. Made of steel with a titanium finish (RAL 7039), it offers enhanced strength and durability, as well as an elegant design that integrates with any wardrobe style.
- Includes all necessary hardware for assembly.

## Components

---

1 metallic drawer, 1 frame with runners, spacers, mounting hardware

## Product description

---

Transform your wardrobe or dressing room with the Quartz Kit, **which combines a pull-out frame with soft-close full-extension runners and a modular shoe drawer**. This set is designed for those seeking to maximise functionality and style, featuring an elegant titanium finish, ideal for any storage space.

The Quartz frame, made of high-quality aluminium, **is equipped with full-extension soft-close runners**, ensuring comfortable, silent, and practical access to your belongings. With a load capacity of up to 30 kg, its installation is simple and quick: just screw the frame to the sides of the wardrobe. Thanks to its adjustable setting of up to 13 mm per guide and the spacers included, it easily adapts to the cabinet space, allowing for precise and versatile installation in spaces with a minimum depth of 460 mm.

The Quartz metal drawer, made from durable steel with a titanium finish, offers a long-lasting and elegant solution for organising your garments or accessories. Its ventilation slots allow air circulation to avoid moisture build-up, while its secure clip system ensures stability during use. Compatible with Quartz frames, **it is easy to install** with the included plastic supports and integrates modularly with other system accessories.

With the Quartz Kit, you can keep your belongings organised and within reach while transforming your wardrobe into a modern, practical, and durable space.

## Product benefits

---

Organise your cabinets with the **Quartz Kit with metal drawer**, an elegant, sturdy and functional solution that combines a **removable frame with soft-close and full extension** and a **titanium-finish steel drawer** for a durable and modern user experience.

**For manufacturers**, this kit is an efficient and versatile choice: its **aluminium structure with adjustment from 562 to 1120 mm** and **load capacity of up to 30 kg** easily adapts to different cabinet models, reducing operating costs and production times. Ideal for mass production without compromising on design.

**Distributors and wholesalers** benefit from a profitable and easy-to-market product. Its optimised packaging, high demand and **modular compatibility with other Quartz accessories** make it an excellent choice for in-store promotion and replenishment campaigns. The attractive titanium design enhances its presentation in catalogues.

**For carpenters**, its **quick installation using plastic brackets and a secure clip system** ensures stability and time savings during each assembly. The **ventilation slots** prevent moisture build-up, offering your customers practical, high-quality solutions, even for small projects.

**E-commerce and retail** will find an ideal product for online sales: highly visual, intuitive to assemble and with excellent functional ratings. The kit fits perfectly with dropshipping strategies, allowing you to expand your catalogue with an attractive, high-conversion solution.

Choose the Quartz Metal Kit and transform your catalogue into a proposal of order, style and quality. Include it today!
