## We join the global challenge #The200Challenge

We join the global challenge **#The200Challenge** to remind you of the importance of keeping the safe distance among people of 200 cm to avoid the spread of Covid-19.

The challenge consists in **increasing the space between the letters of our trademark**, so, each time we see it, we are reminded of the vital importance of opening the distance among us, to leave no space for the coronavirus.

Keep the distance in order to be together.
