## Product Information

SKU	7018013
Materials	Steel, Plastic, Glass
Finishings	Moka painted
Packaging	1 Ut

**Pull-out mirror for interior wardrobe** with frame in **mocha or metallic gray** finishes. This means you can combine the mirror with our other ranges of accessories in your fitted wardrobes or dressing rooms.

It is easy to install, **without machine work**, simply by screwing it into the furniture. To make the process easier, it is supplied with the screws needed to fasten it. In order to install it **the cabinet requires a minimal depth of 380mm.**

Once installed, the mirror can be taken from the furniture with a **smooth, silent movement** thanks to its guides with 45 mm bearings that have a trigger for detaching it and that allows **installation on either the right or left-hand side.** Once the mirror is extracted, it pivots on its support until 180° in order to direct it as you wish.
