The removable mirror guides are a system for the installation of a mirror in a safe way and that it has the capacity of mobility after it is placed. For a secure support this piece is made of steel, providing optimal resistance and durability. Dimensions are 916mm long by 407mm wide by 37mm deep. The finish is painted aluminum to offer an aesthetically pleasing, decorative finish while protecting it from corrosion and rust. The extraction of the mirror is by means of ball guides and supports a maximum weight of 8 kg, it is offered per unit and includes the mounting screws.
