The Madrid 298 furniture handle is made of aluminum so it is a lightweight piece with high resistance to corrosion and wear. Its aesthetic and functional finish is a matte anodized finish that increases its useful life in places of high impact and humidity such as kitchens and bathrooms. It offers a simple fingernail style, which highlights a subtle and sublime look with its rounded edge. Its minimalist and clean appearance makes it a decorative and functional element mainly in kitchens and bathrooms. This handle is installed by inserting a tab in its lower area and its packaging is 10 units.
