Product Information

SKU	1060207
Materials	Steel
Finishings	Nickel plated
Packaging	200 Ut
Description	Screw-on

The nickel-plated super elbow hinge is a piece made of steel, with a nickel-plated finish that is designed to hold doors with a thickness of 14 to 26 mm. It has a spring both in the closure and in the opening. It has a drilling range of D = 3-7 mm. It is three-dimensionally adjustable and has an automatic system for mounting the hinge to the supplement. It has a piston for soft closing that prevents the deterioration of your furniture and has eccentric regulation. Each package contains a total of 200 units and its installation is simple, designed so that anyone can carry it out without prior preparation.
