

**Waste containers 2 inner bins (16 litres) inox, Stainless steel, Plastic and Stainless steel**

8906865

## Product Information

SKU	8906865
Materials	Plastic, Stainless steel
Finishings	Stainless steel
Packaging	1 Ut

Internally installed garbage container module, made of stainless steel that guarantees easy cleaning and great durability. It has automatic extraction when opening the cabinet door and can be installed in modules of at least 50 cm, although it is also possible to do it in modules with 40 cm, dispensing with the automatic extraction system. On the other hand, the container has a 16-liter capacity with two interior compartments. The width of the container is 343mm with a height of 366mm and a length of 477mm, with an outlet distance of 360mm. Packing is done per unit.

- For mounting in 500mm module minimum.
- Can be mounted in a 400mm module with manual pull-out.
